

# Rapidly secure your applications.

Just getting started with application security?

We'll help you leap ahead to secure applications.

Maturing an active security program?

We'll help you expand your program and reduce your exposure.

## Denim Group's Accelerator Program

Take a proactive approach to your security.

Knowing that you may have some vulnerabilities isn't enough. Where are they? How serious are they? How many do we have? Through our Accelerator Program, we'll help you quickly identify your most serious risks, secure your applications, and track your progress.

### Program Based

Quickly plan your assessment program and easily track progress towards secure applications.

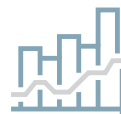

### Expert Help

Gain access to security experts with development backgrounds to help your team fix vulnerabilities.

### Tailored Options

Assessments designed to fit your needs and budget.

### Actionable Results

Assessments results are provided in ThreadFix to track progress and accelerate your time to fix.
